About This Content

In 2017, LAX handled 84,557,968 passengers, making it the world's fifth busiest airport by passenger traffic, and the country's second busiest overall after Hartsfield-Jackson in Atlanta. The airport holds the record for the world's busiest origin and destination (O&D) airport, since relative to other airports, many more travelers begin or end their trips in Los Angeles than use it as a connection. It is also the only airport to rank among the top five U.S. airports for both passenger and cargo traffic.

As the largest international airport on the U.S. West Coast, LAX is a major gateway to and from Europe, Latin America, Asia and Oceania. With its deep connections to Asia and Latin America in particular, LAX is considered to be the premier "Gateway to the Pacific Rim. (--Wikipedia)
